Consilium Software offers its technology partners the ability to participate in a Lead Referral Program. Consilium Software Lead Referral Program allows organizations and individuals to earn commission for referring customers who purchase Consilium solutions. Consilium Referral Partners earn a competitive referral fee for all qualified leads that result in the sale of a Consilium solution. Once the lead is generated, Consilium Software manages all activities associated with finalizing the deal, along with providing customer billing and support.

How to participate?

Any organization or individual can participate in the Consilium Software Lead Referral Program as long as they meet the eligibility requirements. The better the relationship with the prospect and the more complete the information, the higher the likelihood of closing the business. While administrative requirements are minor, our referral program works best when sales teams are well informed of the revenue possibilities from referable leads. In addition to being easy to participate in, it's also a great way to become familiar with Consilium solutions and other partnership possibilities. Join today – and start turning opportunities into gold!

How to Qualify as a Referral Partner?

Any individual or business organization can become a Consilium Referral Partner as follows:

- Referral Partners must provide information about themselves such as their name, address, contact individual, and type of business organization (if applicable).
- Referral Partners will agree to Consilium Software's Lead Referral Program Terms and Conditions first time they submit a referral.
- Consilium Software retains the right to terminate a Referral Partner's participation, or to discontinue the Referral Program at any time.

How to Make a Referral?

It's easy for a Referral Partner to send referrals to Consilium Software:

Contact us at Sales@consiliuminc.com with the necessary lead and customer information. We will review the referral information and determine if the lead qualifies for the Consilium Software Lead Referral Program, and notify the Referral Partner of the acceptance or rejection within 2 business days.

If the referral is accepted, a Consilium account executive will contact the lead and follow our regular sales process. Referrals are good for six months from the date of referral. Referrals are eligible for commissions only when initiated using the Consilium Software Lead Referral Program and end in an approved purchase.

We will send any referral commission earned on the sale within 30 days after we receive 100% payment related to won deal from the customer.
